Programme overview

The MSc in International Audit and Compliance looks at both the auditor's traditional role and how this has evolved in an ever-changing environment. This degree delivers in-depth knowledge in international accounting standards in line with the different existing frameworks, as well as about international auditing standards, compliance and professional ethics, governance, internal control and offers a basic grounding in fraud and cybersecurity concepts, as well as the current issues affecting both.

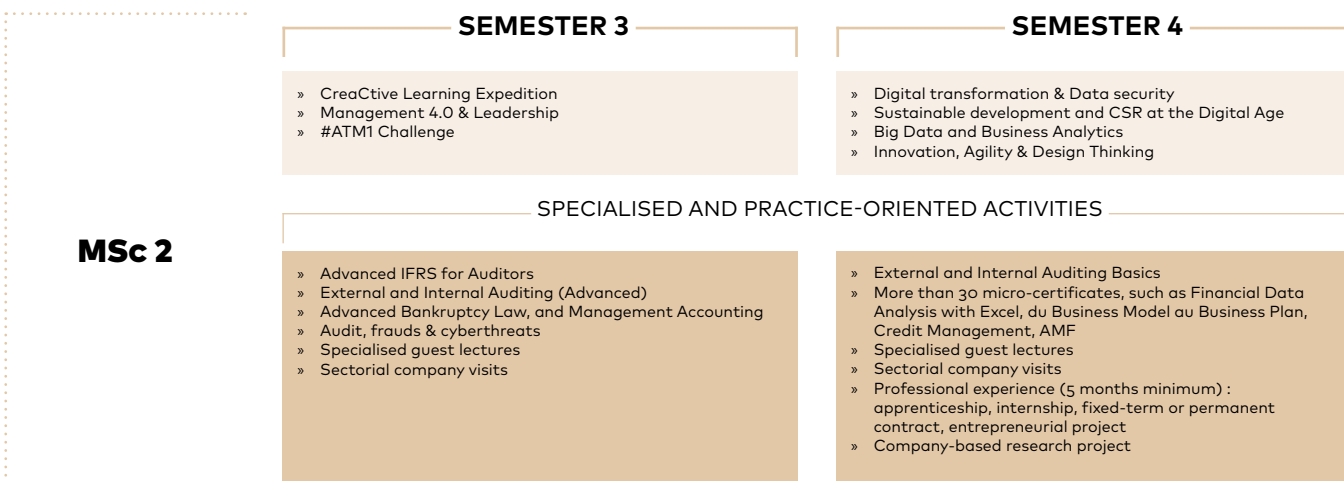

The notions that underpin audit and governance are discussed with practical examples and case studies of audit techniques and work programmes used to illustrate how these are applied in real-life situations, as well as, professional and academic articles for discussion and analysis, enabling students to quickly secure positions in these fields.

You can join the regular track or the short track of the programme:

Regular Track *The regular track allows you to enter the first year (MSc 1) of the MSc in International Audit and Compliance and to follow the 4 semesters of the programme (MSc 1 and MSc 2)*

Short Track *The short track allows direct entry into the 2nd year of the programme (MSc 2).*

WORK-STUDY FORMAT

Students on the programme can gain industry experience by combining their studies with a work placement as part of an apprenticeship. Doing an apprenticeship can boost your employability and is an excellent way to develop hard and soft skills that are highly valued by employers. Apprenticeships will also allow you to be entirely waived of your tuition fees. The host company also pays you a monthly salary for the duration of the contract according to a scale based on the gross monthly minimum wage. The work-study rhythm will enable you to work part-time in a student-job for 8 to 20 hours per week. This is a great opportunity to expand your skill set. If you have an entrepreneurial mindset, you can also use your free time to build your own project!

PARTNER COMPANIES

"In my first year at ICN, I was able to learn about the professional sector I was interested in. The multidisciplinary teaching, the presentations and the group projects enabled me to gain business culture, as well as soft skills that allow me to work efficiently within an organisation.

After several professional experiences in Corporate Finance and Financial Audit, I am now a Management Controller at Deloitte Luxembourg. My job consists of providing support to the operational and management departments and of providing financial monitoring of the activity and offering corrective actions. What I remember from my years at ICN is the solid theoretical basis I acquired, needed at the start in one's career. In addition, the school offers the opportunity to gain professional experience during its forums and its student networks."

Noubir Jeddi
Senior Financial Controller,
Deloitte Luxembourg

Financial aids and scholarships

We strongly believe that your financial circumstances should not be a brake on you going to your chosen school, and there are various ways in which ICN can help you to fund your studies. By means of scholarships, partial fee waivers, the option of paying in installments, bank loans, and so on. A range of support is available!
