ADMINISTRATIVE & PEDAGOGICAL REGISTRATION

After you have been accepted at ICN Business School, the registration office will send you an email (around June/July) with the instructions to complete your administrative & pedagogical registration within ICN.

The administrative inscription is to be completed as soon as possible, as it will allow you to access your "myICN" account and student email inbox.

Once completed, your enrolment certificate, that you might need for further administrative procedures, will also be generated, and ICN will issue your personal student card that will give you access to the campus and serve as proof of your student status throughout the entire academic year.

Once the administrative inscription is finished, you will receive a second detailed email from the registration office explaining the procedure to make your pedagogical choices. This depends on the programme you chose within ICN.

Visa process, residence permit & OFII registration

VISA FOR FRANCE

If you do not have the nationality of one of the EU's member states (even if you currently live in an EU member state) you will need to obtain a long-term student visa before coming to France. The VLSTS student visa allows you to pursue studies in France for a period of four months to one year. It must be validated upon your arrival in France. If you would like to continue your studies after it expires, you must apply for a multi-annual residence permit (*carte de séjour pluriannuelle*).

There is an official website for visas in France: <https://france-visas.gouv.fr>

How to obtain a VLS-TS student (VLS-TS "Étudiant") visa?

- Students who reside in one of the countries affected by the "Etudes en France" (Studying in France) procedure must make a specific request for enrolment in an institute of higher education through the platform "Etudes en France". Your visa application will be automatically sent to the French consular authorities of your home country through the platform.
- If you do not live in one of these countries and you need a visa to come study in France, please contact French consular authorities in your home country.

How to validate your VLS-TS visa?

As soon as you arrive in France, you must validate your visa. The process is entirely digital: you can do everything remotely, at home, on your computer. You must validate your visa within 3 months of arriving in France at the very latest. Please, visit the following website to do so: <https://administration-etrangers-en-france.interieur.gouv.fr/particuliers/#/>

What do you need to validate your VLS-TS visa?

- A valid email address,
- Information on your visa,
- Your date of arrival in France,
- Your home address in France,
- A bank card to pay online the fee for the issuing of the residence permit.

What if you do not have a bank card?

Don't worry! You can buy an electronic stamp (timbre électronique) at a kiosk or at a dedicated terminal and pay in cash.

OFII Registration process

International students holding an "Extended-stay student visa" (visa Long Séjour VLS/TS) that is valid for 6 to 12 months, with the following statement on their visa: "CESEDA R311-36" must register with the OFII Immigration Office (Office Français de l'Immigration et de l'Intégration).

When you arrive in France, you have to validate the visa via this page: [Étrangers en France | Accueil \(interieur.gouv.fr\)](https://interieur.gouv.fr/etrangers-en-france/accueil). Make sure to buy the tax stamp in the last step of the procedure, it is compulsory to submit your visa request to the OFII online service. The visa itself, together with the visa confirmation, acts as the titre de séjour.

VISA FOR GERMANY

All non-EU citizens require a visa for stays in Germany. A visa is not required for visits of up to 90 days in a 180-day period for nationals of those countries for which the European Community has abolished the visa requirement. Please find here an overview of the visa requirements/exemptions: <https://www.auswaertiges-amt.de/en/einreiseundaufenthalt/-/231148>

Visa applications are to be submitted at the German mission that is responsible for your place of residence (embassies and consulates) no later than 3 months before your prospective arrival date. Please provide all necessary documents and information when submitting the visa to avoid a delay in issuing the visa. The necessary forms can be downloaded or inquired free of charge at the embassy/ consulate. Submitted forms must be provided in the original version. The visa application fee is 100€.

The following documents are required for the visa application:

- Visa application form (Schengen) / National application form (Germany)
- Valid passport
- 1 biometric photograph
- Proof of financial resources (11,208 €/ per year on a German blocked account) or a letter of commitment and evidence of your parent's income records and financial assets
- Proof of university admission (enrolment certificate or admission letter)
- Proof of fulfilling the university entrance requirements/ transcript of academic records • Student health insurance
- Proof of main residence

Consult the following official websites for detailed information:

- German Federal Office : Full Procedure for Applying for a Student Visa
- Study Visa With Admission to a German University
- Practical Information Regarding Your Stay in Germany & More on Visa Regulations, Proof of Financing & Health Insurance

Please keep in mind that the immigration officer (at your personal appointment) might ask for more documents to sustain your application, like ex. proofs of prior education or a health certificate.

Student visas are usually valid for three months. Within these three months, you will have to apply for an extended residence permit at the Alien Registration Office in your university town. They require the same documents for the student residence permit as for the visa process.

Here you can book an appointment at the immigration office in Berlin to obtain your student residence title.

HEALTH INSURANCE

& social security

Every student in France and Germany, whatever their nationality, must have health & accident insurance.

IN FRANCE

The CPAM (*Caisse Primaire d'Assurance Maladie*) is in charge of managing student social security. It is important to respect this obligation as during your administrative procedures (residence card, personal housing allowance...), you will have to show proof of your social coverage. Enrolment in the French student insurance system will allow you to be reimbursed for up to 70% of medical costs. **We recommend that you also purchase additional insurance called a student “mutuelle” which will provide more coverage.** The two health insurance providers are MGEL (<https://www.mgel.fr/>) and LMDE (<https://www.lmde.fr/>).

Several cases are possible regarding the mandatory health insurance:

IF YOU COME FROM A MEMBER STATE OF THE EU:

You must obtain from the Insurance Agency in your home country your European Health card or a temporary replacement certificate. It will exempt you from having to register for French health insurance while still providing identical coverage. If you have a European health insurance card valid until at least the end of the academic year, you do not need to register at the French health insurance. Your home country's health insurance will take care of your health expenses and will refund you. If you do not have a European Health Insurance Card, you must create an account on etudiant-etranger.ameli.fr in order to create a social insurance file (free of charge).

IF YOU COME FROM A COUNTRY OUTSIDE OF THE EU:

You must register at <https://etudiant-etranger.ameli.fr/#/>. You must provide a residence permit, proof of registration for the current academic year, an identity document (valid passport or ID card), a student visa, a copy of your birth certificate translated to French and authenticated by a legible stamp, and an official banking information slip (RIB). Students from the Province of Quebec, Canada must obtain the SE401-Q106 form from the Ministry of Foreign Affairs in Quebec before coming to France. This form will exempt you from having to pay for French student insurance.

IN GERMANY

It is mandatory to have health insurance in Germany and you need to provide proof of proper health insurance when completing your administrative registration at ICN.

IF YOU COME FROM A MEMBER STATE OF THE EU:

As an EU citizen, you can keep your health insurance from your home country and see a doctor in Berlin without any problem. Just bring along your European Health Insurance card and present it at the reception of the doctor. Make sure to contact your insurance company to inform them about your relocation. You are covered by your home insurance until you start working.

IF YOU COME FROM A COUNTRY OUTSIDE OF THE EU:

As a non-EU international student, you need a German health insurance. The monthly fee for health insurance in Germany is about 110€. Here are some options:

- Techniker Krankenkasse (TK) - Contact: Monique Zamaitat (Monique.zamaitat@tk.de)
- DAK

Many different private insurance companies offer health insurance services to students. Please check cautiously their services and make sure they include everything you want and need, (e.g. HanseMerkur, Europ Assistance, AXA Assistance, Dr. Walter: good options that are usually accepted for visa applications)

Civil liability INSURANCE

IN FRANCE

It is mandatory to have a civil liability insurance if you are renting a flat. The civil liability insurance, called responsabilité civile, is a third-party compulsory insurance that covers any accidental damage that you, as a private person, may cause to others or their property. Most often this is included in a home insurance policy, but it is always a good idea to confirm that this is the case! Here are some of the most common insurance companies where you can get one: MAAF, Macif, Matmut, etc.

IN GERMANY

We recommend that you take out liability insurance for your stay in Germany. If, for example, you damage a piece of furniture in your rented apartment or cause an accident as a pedestrian, you must pay for the damage incurred. Liability insurance covers the costs of justified claims and protects you from unjustified claims at the same time. Companies like Mawista or Dr. Walter might be good options. English-speaking insurers would be Feather (<https://feather-insurance.com/personal-liability-insurance>) and Getsafe.

HOUSING

In Paris, Nancy

There are 4 main housing categories in France:

- Furnished studio in a private student residence,
- Furnished studio in a private residence,
- Private housing (apartment, roommates...),
- Furnished room in a state-owned university residence (CROUS).

ICN Business School does not own any residence halls. However, once your admission has been finalised, please contact us via housing-info@icn-artem.com in order to obtain detailed information about housing options available in Nancy, Paris or Berlin. The International Relations Office (international@icn-artem.com) and the BDI ESN Globe & Co student association (globeandco@outlook.com) are also available to assist you in your search for housing.

PRIVATE STUDENT RESIDENCE STUDAPART

To facilitate your search for accommodation in France, we also recommend using the school's platform dedicated to housing: Studapart.

You will be able to find a rental in a student residence or in a private apartment, a room in a shared apartment, a sublease, or even a room with a French family!

Sign up here: <https://housing.icn-artem.com>.

PRIVATE HOUSING

Another option is to rent a private apartment or a room in a shared house/apartment. This area of real estate may be difficult to access from abroad, nevertheless, you can consult offers and advertisements via the websites below:

CROUS: STATE OWNED UNIVERSITY RESIDENCE

The university residences in France are managed by the CROUS (*Centre régional des œuvres universitaires et sociales*). The traditional residences offer only single occupant furnished rooms, each measuring 9 square meters. You will need to bring your own bed-and-bath linens, including towels and sheets. The bathrooms (toilets) and kitchens are for shared use and are located outside your room on the same floor.

Cooking in your room is forbidden. The university restaurants offer full, modest-priced meals at lunch and dinner. Meal tickets can be purchased at restaurants (on a rechargeable chip card).

Type of contract

The contract is normally drawn up for a period of 9 months (usually from September to June). As soon as the contract is signed, students must stay in the residence and the contract cannot be cancelled. The rent for a university student's room varies between 150€ and 550€ per month.

Upon arrival, you must pay a guarantee (security deposit), depending on the type of room. This deposit will be returned to you at the end of your stay after your apartment has been inspected for damage and after any other sums due to the CROUS have been paid.

It is recommended that students who would like additional privacy (personal bathroom and kitchen) select a private student residence rather than CROUS.

You must also take out a comprehensive 'multi-risk' property and contents insurance policy (in case of theft, fire, accident, etc.) with a French company (insurance company, bank) You should expect to pay between 30€ and 65€ per year for this insurance.

The request for housing is done online on the CROUS website:

NANCY <https://www.crous-lorraine.fr/international/nos-solutions-dhebergement>

VERSAILLES <https://www.crous-versailles.fr/logements/>

PARIS <https://www.crous-paris.fr/logement/demander-logement-crous>

IMPORTANT TIPS

- Remember to send your arrival date and time to Globe and Co if you wish to be picked up at the train station. You must give a week's notice.
- You should plan your arrival for a weekday (from Monday to Friday) and before 6 pm. You should advise the rental office in advance of your intended arrival.
- Keep in mind that residences ask for the payment of a guarantee corresponding to a security deposit which will be reimbursed to you at the end of the contract if there is no damage to the property. Certain residences also ask for a non-reimbursable agency fee for administrative purposes.
Most private owners and agencies will ask you to provide a guarantor to sign the contract. It can be one of your parents or someone you know in France that can justify they have a regular salary. If you don't have a guarantor, you can ask to benefit from the *garantie Visale*, a free security deposit service for students. Get more information here: Campus France Tutorials:

French version : <https://www.youtube.com/watch?v=CiFZ8yswmfA>

English version : <https://www.youtube.com/watch?v=RDoqrqSPOKs>

Spanish version : <https://www.youtube.com/watch?v=MpZDvYp7CNM>

- You should also take out a comprehensive "multi-risk" property and contents insurance policy (in case of theft, fire, accident, etc.) with a French company (insurance company, bank or MGEL, student's insurance agency). Again, Globe and Co can help you with this. Renting a studio in France entitles you to apply for a financial grant, called "*Aide Personnalisée au Logement*" (see the section on "Financial Assistance" section).
- To qualify, you need to meet certain requirements:
 - - ◊ a completed application form,
 - ◊ a cheque for the security deposit,
 - ◊ proof of insurance,
 - ◊ your appointment for the studio inventory.
- Studio inventory and damage inspection: an inventory and damage inspection of the studio will be carried out upon your arrival and again when you leave. You should thus plan your arrival for a weekday (Monday to Friday) and before 6 pm. You should advise the rental office in advance of your intended departure. The studio inventory and damage inspections are required. Students who do not respect this rule risk losing their security deposits.
- The leasing contracts are drawn up on the basis of a traditional leasing arrangement, which student occupants can cancel ONLY upon 3 months' notice. For example, if you wish to leave your apartment/studio on June 15th, you must send a letter indicating your intention to cancel your leasing contract dated no later than March 15th. The International Relations Office can give you an example of the termination letter.

HOUSING

In Berlin

As soon as you are admitted, you should start looking for accommodation in Berlin, as procedures can take time. Since the vast majority of people usually rent apartments in Berlin, the offer is vast, but the demand is high as well, so keep in mind that it is not easy to find an accommodation. It helps to come to Berlin for a few days, visit apartments, prepare all necessary papers, and discover the city.

REGISTRATION & GEZ

If it's your first time living in Germany, by law, you must complete your registration (*Anmeldung*) within two weeks after arrival. It can take time to find a free slot, therefore, it is recommended to consult the appointment page several times per day.

Registration is completed at the citizen registration office (*Bürgeramt*) in each city district. Please schedule an appointment unless you have time to wait for hours. Registration agents know that it is hard to get an appointment within two weeks after arrival, but you **should make sure to place the inquiry for the appointment within the first two weeks**. You can schedule an appointment online, usually, the registration offices are fully booked 6-8 weeks in advance. Check the registration offices of other districts as well - you do not need to choose the registration office of your district, the procedure can be done in any *Bürgeramt*.

- More details on how to register an address in Berlin
- Schedule an appointment at: service.berlin.de/terminvereinbarung/termin/day/

After registering at the *Bürgeramt*, you will soon receive a welcome letter from the GEZ (License fee for public service TV, radio, etc.). The fee costs approx. 18€ per month and it serves to finance public broadcasting services based on a contributory model.

To learn more: https://www.rundfunkbeitrag.de/welcome/englisch/index_ger.html#the_licence_fee

If/when you plan to go back to your home place or leave Germany, do not forget to unregister at the registration office and at the GEZ to avoid paying the license fees.

HOW TO FIND AN ACCOMODATION

The most common way to search for an apartment are the following relevant platforms:

- www.wg-gesucht.de
- www.immobilienscout24.de (shared flats, apartments)
- Wunderflats (furnished apartments)
- www.immonet.de (shared flats, apartments)
- www.wohnung-jetzt.de
- <https://www.i-live-berlin.de/en/rent>
- Even on <http://kleinanzeigen.ebay.de/anzeigen/> you can find suitable apartments for you
- You can also use Airbnb & other websites

Private students' dorms might be a good option, as these tend to include all utilities (internet, water, etc.):

- [Berlinovo](#)
- [Youniq](#)
- [House of Nations](#)
- [The Fizz](#)
- [Spotahome](#)
- [BoardinghouseBerlin](#)
- [Easy Living 4u](#)

- [The Social Hub Berlin](#)
- [Habyt](#)
- [Neonwood](#)
- [Silberstein54](#)
- [Studio B](#)
- [Spreepolis](#)
- [Campus Viva](#)

The net rent (*Kaltmiete*) is the amount of money that must be paid to rent the place including charges for services like garbage collection, street and building cleaning, heating, and water supply. Several additional costs such as expenses on heating or electricity depend on individual consumption, while others are charged according to the apartment size. Power, telephone, and gas are usually not provided by the property owner, but instead contracted directly with the utility providers. When renting a room in a student's dorm, all services are usually included in the monthly rent and a fee for the furniture is added. If you want to rent an apartment long-term, housing companies might be a good option:

FUNDING YOUR STUDIES

There exist several ways to help you fund your studies at ICN Business School, listed below:

YOU ARE STUDYING ON ONE OF OUR CAMPUSES IN FRANCE:

INTERNSHIP	
DESCRIPTION	ELIGIBILITY
In France, all internships longer than 2 months must be paid. The monthly salary depends on your employer, but you can expect to receive at least 567€ per month for a full-time internship. Some internships shorter than 2 months can also be paid. This is to be agreed with your employer.	Most full-time students will be able to do at least one internship. Most exchange students and some students doing a dual degree with ICN Business School have no internships in their programme. Please check with ASQ if you are required to do an internship during your studies.

WORK/STUDY RHYTHM

You will receive a monthly salary for the duration of your contract calculated based on the French gross monthly minimum wage. Some of your tuitions fee will be covered by company as well.	The work/study rhythm is only available for 3rd year Bachelor students, and for Master's students depending on their specialisation.

STUDENT JOBS

DESCRIPTION

Student's job can help you fund your studies. French law authorises foreign students to work 964 hours during the year, the equivalent of 60% of the legal work year. However, keep in mind that you will have a lot of courses throughout the week, including sometimes on Saturdays, and that attendance to all classes is mandatory. Here are some useful websites :

It is important to apply for financial housing assistance as soon as possible after your arrival in Nancy or Paris (the student association Globe and Co can help you with this procedure). Keep in mind that if you should leave your apartment on the 15th of a given month, the financial housing assistance will not apply for that month's rent.

ELIGIBILITY

Any foreign student who has a European nationality or a French long-stay visa has the right to apply for government housing assistance. In order to qualify, you need to meet certain requirements.

FINANCIAL SUPPORT AWARDED BY ICN BUSINESS SCHOOL

YOU ARE STUDYING ON OUR CAMPUS IN GERMANY:

STUDENT JOB

In addition to the various practical experiences that you will gain during your studies, a student job is a great way to earn some money, gather further experience and, at the same time, make useful contacts with potential employers.

There is definitely an impact on earning potential depending on which form of employment is chosen:

WORKING STUDENT

Your income varies depending on several factors like industry, employer, degree program, and activity. Nevertheless, it is important to keep in mind that your main occupation is your studies, and the job is just an additional extra. Working students can work up to a maximum of 20 hours per week. Contributions for health and long-term care insurance only accrue if the salary exceeds the German tax-free limit^{*1}.

VACATION JOB

You maintain an occupation during a predefined period in your semester break. The period cannot exceed 50 working days or two months per calendar year. If you earn more than 900€*, the employer is obliged to pay the taxes to the tax office. However, you can get the money back in the form of a tax return at the end of the year if the basic allowance is not exceeded. You have to submit a tax declaration.

MINI JOB

You can earn 450€* a month only. Most students working in a mini job have a flexible work schedule. Usually, you get paid in case of sick leave and as long as you do not exceed the 450€* gross income, it will be your "net" because the employee has no tax liability due to low income.

MIDI JOB

Defined by the income and ranges between 450€* and 850€* per month. Someone who chooses this job type must pay, depending on income, gradually increasing contributions to the pension insurance. Contributions to health, long-term care and unemployment insurance do not apply to students as long as they work less than 20 hours a week. It is fully taxed, and if your monthly income exceeds 450€* you have to compulsorily insure yourself.

IMPORTANT INFORMATION FOR FOREIGN STUDENTS

Students from the European Union, Iceland, Liechtenstein, Norway and Switzerland have free access to the German labour market and are practically equal to German students in this respect.

For students from other countries, special legal rules apply: International students from other countries may work a maximum of 120 full or 240 half days a year (regulation of 2018). You may not become self-employed or work freelance. If you want to work more, you need the approval of the Employment Agency and the Immigration Office. It depends on the labour market situation: in regions with low unemployment, the chances are better. If you go abroad, it is important to know the labour law regulations. Anyone who violates this can be expelled from Germany.

If you have any questions about the conditions, please contact the Immigration Office.

Further information: <https://www.daad.de/en/study-and-research-in-germany/first-steps-germany/side-jobs/>

¹ The limits are updated on a yearly basis, please consult the latest available information online.

STUDENT LOAN

KfW is a promotional bank that tries to mitigate market weaknesses wherever they occur. They have a student loan programme that supports students with monthly payments of up to 650€, covering tuition and/or living expenses. German citizens studying in higher education institutions with the state recognition not older than 44 years are eligible for the student loan of KfW. The monthly rate can be adjusted flexibly, and collateral is required. It is granted regardless of your personal and your parents' income and assets and you are flexible in repayment for a period of up to 25 years.

For more information: <https://www.kfw.de/inlandsfoerderung/Private-customers/Education-and-Training/>

Other banks offer student loans wisely, but the offers should be checked properly. Keep in mind that you should maintain some flexibility in when to start paying the loan back or the monthly payback rate. Go and get several offers to see which one suits your needs best.

As soon as you arrive, they will be there to answer all your questions, whether they are about practical life, administration or school life.

Attending a foreign university means meeting a lot of new people. To make your stay in France a rewarding one, they propose mentoring, a welcoming drink, parties, and visits to interesting places. Your suggestions are always appreciated.

INTERNATIONAL AMBASSADORS CLUB

And if you also want to play an active role in your school and be a part of it, please contact marketing-intl@icn-artem.com to get more information.

Events

Every academic year at ICN is marked by numerous student events which make you feel involved into ICN community. We strongly advise you to attend them and be a part of the family as the team spirit and commitment are our core values!

GENERAL EVENTS AT ICN

Here is a list of some of the main events organised at ICN. Don't hesitate to check MyICN and the information boards in each campus to get updates.

Forum des associations

At the beginning of each academic year, the Forum des associations (clubs forum) is organised. During this event, you can get to know all the different associations at ICN and what they do, and if you want to, you can join an association whose project resonates with you.

Seminars

Every year, the PEPs organises seminars for students in Bachelor 1, Bachelor 3 and Master 2 (whether it is in a European city, in the French Alps or somewhere sunny!) You'll attend different workshops and conferences held by teachers and speakers from the professional world. These seminars are a great opportunity to meet other international students as well as French students and have fun together during the sporting events and evening gatherings.

Trophée des associations

Each year, ICN organises the Trophée des Associations. It is a gala event during which associations and clubs are rewarded for their work in a range of categories. Commitment, best collaboration, communications, best event, "Coup de Coeur" (judges' favourite) prizes, and so on – the associations and clubs that have made the biggest impact receive their award during the course of this joyous ceremony!

SMart Hackaton

This event is aimed at Bachelor students and takes place over several days with the idea to explore the boundaries between art, management and technology. You'll work in groups and the aim is for you to think about how transdisciplinarity can be of use to you during your career. You will also think about your future career and imagine what the "responsible manager of tomorrow" looks like.

Creathon

This is the transdisciplinary event for MSc 1 students. It takes place over 4 days and gathers students from all 3 campuses. You'll learn to adapt and work as a team with people from different backgrounds.

Boost your employability

Different events are organised throughout the year by the Career and internships office during which you can boost your employability. English afterworks will enable you to meet ICN alumni working around the world and to learn more about their current job, and previous work experiences. Group workshops will give you excellent tips to present yourself to your employer, such as how to prepare an impactful CV, or cover letter... The coaching sessions are organised with ICN partners specialised in HR professions to prepare students to meet recruiters at company forums: professional posture, development of academic and professional skills, recruitment interviews etc. The career fairs will enable you to meet companies looking for interns or employees. Last but not least, you will be able to listen to professionals (usually ICN partners or ICN graduates) from the business world working in marketing, HR, purchasing and supply chain, digitalisation, consulting, auditing, and more, sharing their experience in the framework of the job roundtables, to have a more enlightened vision of the jobs that await you at the end of your studies. These sessions are led by an ICN teacher who is an expert in the field.

Graduation ceremonies

Every year, the graduation ceremonies for each programme are held the following March after the end of your studies. This is the occasion to see your former classmates and professors again, and to be celebrated as a new ICN alumni. Be prepared for a real show!

.. AT ICN

VISA RENEWAL

HOW TO RENEW YOUR STUDENT VISA IN FRANCE

If you need/want to renew your visa to continue your studies, you can request to renew it by filing an application with the prefecture (préfecture). Everything can be done in France three months before your residence permit expires. For more information: www.campusfrance.org/en/renew-residency-permit.

HOW TO GET A NEW VISA IN FRANCE AT THE END OF YOUR STUDIES TO WORK

At the end of your studies and after obtaining a degree of French higher education, depending on your country, you can request a Temporary Resident Permit called "APS" (*Autorisation provisoire de séjour*) to look for work or start a company. It will allow you to remain in France for one year after the end of your studies. During this period, you may look for a job (without restriction) or prepare for the creation of a company in a field corresponding to your training. To get more information and check if your country is concerned by the APS: <https://www.campusfrance.org/en/temporary-resident-permit-aps>

HOW TO RENEW YOUR STUDENT VISA IN GERMANY

Your student residence permit is valid for one to two years. You can extend it, provided that your studies are on the right track and that you will finish during the standard timeframe. To extend your German student permit, you need a confirmation letter from your school that your studies are progressing regularly.

You must submit the request to extend your student permit at the *Ausländerbehörde* before your current permit expires.

HOW TO GET A NEW VISA IN GERMANY AT THE END OF YOUR STUDIES TO WORK

After graduating, you have two options if you want to remain in Germany once your student residence permit expires:

- Apply for a residence permit for job seekers – if you do not have a job offer.
- Apply for a residence permit for working – if you have a job offer.
